CAREER OBJECTIVE

Exceptionally focused and reliable with an outstanding work ethic Seeking for a long term position in a company that gives me the opportunity to learn and grow with them.

EDUCATION

- .NET core self taught.
- John Bryce - Java Full Stack Development(2019).
- Efraim Gimnasia Katzir Holon (2011).

EXPERIENCE

2020 - Today - Freelancing

- Building applications from scratch with focus on using the right technologies for its needs.
- Maintaining and debugging existing projects for better performance.

2019 - 2020

- Finished a 8 months Java full stack development course at John Bryce and shifted my focus mainly on gaining more experience in the software world by intense self learning from home and working on a handful of projects.

2018 - 2019 - English Desk Sales Agent in Toyga

- Presenting and explaining the company's advantages to every potential client and helping them remotely if needed with patience and determination.

2015 - 2018 - Construction Project Manager

- Managing a team of 5 workers.
- Ongoing communication with clients making sure they get exactly what they want.

PROGRAMMING SKILLS

- C# , .NET core, Java, RabbitMq, Quartz, autofac, REST, Hibernate, MySQL , SQL Server ,Selenium ,razor pages & , AJAX, jQuery, Javascript, REST, Data Structures, Design Patterns.
- Familiar with the SOLID principles.

PROJECTS USING C# .NET

• AutoMatcher (project in progress)

An online service for automated likes, scheduling & **more** on a variety of services such as Badoo, Tinder etc.

❖ Using .NET core mvc, razor pages, .NET Identity, Autofac, RabbitMQ, Quartz.net ,SQL Server, Selenium, Nlog, AJAX, jQuery, Javascript while following SOLID principles.

Linkedin Bot

- A Bot that uses Selenium browser automation for adding, messaging & removing a targeted group of people based on current position, while working with the database. The bot also handles edge cases such as: multiple message boxes popup, message sending errors & linkedin messaging blocks.
 - ❖ Winforms, Multi Threading, Selenium, MySql. <https://github.com/Feuse/LinkedinMessenger>

PERSONAL

- Highly motivated to learn & contribute with strong communication skills, self learning & the ability to Quickly adapt with company's needs.
